THE HOUSE COMMITTEE

On Rivers and Harbors Hold a Meeting

A DELEGATION FROM ATLANTA

Want a Military Park Established in that Vicinity—Senato Pritchard Introduces a Bill.

Special to the Telegram.

Washington, Jan. 31—The house committee on rivers and harbors held a meeting on Tuesday morning. It is reported that the majority of the committee still adhere to their determination not to report a bill during the present session of congress. This is due to the fact that the republicans wish to keep down the appropriations as much as possible, as they do not want to go before the country with a record of being extravagant in the matter of appropriations. They apparently would prefer to go before the country with the record of having withheld appropriations for river and harbor work, which is urgently needed and demanded by the people. It may be added right here that without exception the democratic members of the committee are in favor of the consideration of the river and harbor bill during the long session Mr. Sparkman, Gen. Catchings and other members of the committee from the south say that there are a number of districts in the south which are anxious for additional appropriations for the improvements of their rivers and streams.

The committee will grant hearings to those who desire appropriations, but it is not likely that the hearings will be held for the present as most delegations which may be sent to Washington for the purpose of being heard, if no bill is to be reported this session, would naturally desire to be heard as late as possible, as the members of the committee would then be more apt to keep the facts in mind than if the hearings were to be held at the present time. There seems to be doubt but a bill will be reported for improvements during the short session of congress.

Captain Frank R. Dunn, of Pensacola, Florida, is expected in Washington very shortly, and will be the guest while here of Hon. J. Ed O'Brien, president of the national pilot's association. Captain Dunn sailed as master of the pilot-boat Sommers N. Smith, which has recently been sold to the Red Star Line of Philadelphia. The Sommers N. Smith was during the Spanish American war, the dispatch boat of the New York Herald, and after taking the boat to Philadelphia, to her new owners, Captain Dunn will go to New York city, where he will be the guest of the managers of the Herald. From New York he will come to Washington, as stated, and will remain here for several days before returning south.

A strong delegation from Atlanta, are in the city for the purpose of urging upon congress the advisability of the establishment of a national military park in their vincinity. The delegation while here called to see the president, and secretary of war. They will also be granted a hearing before the house military committee. The delegation have seen the Georgia, and other delegations in congress in the interest of their measure.

Senator Pritchard has presented to the senate a petition from J. B. Smith, of Lexington, North Carolina, president of the North Carolina Pharmaceutical Association, asking for the repeal of the stamp tax upon proprietary medicines, perfumerics, and cosmetics The petition has been referred to the committee on finance.

Senator Pritchard has introduced a bill for the relief of James Ballard, which has been referred to the committee on military affairs.

Representative small, of North Carolina has introduced a bill for the relief of the heirs of the late Samuel T. Carrow, of North Carolina.

Among North Carolina people in Washington are Messrs. H. N. Moss, R W. Moore, of Charlotte; C. V. White, of Greensboro L. P. Rawlings, and Charles A. Webb, of Asheville.

HIGH POINT CORRESPONDENCE

The Best Thing to do is to be Vaccinated—News Notes.

TELEGRAM BUREAU, HIGH POINT, Jan. 31

Mrs. C. W. Chilcott, of Greenville, S. C., stopped off here yesterday with Miss Lindsay on her way home from a visit to Richmond, Va.

I am told by a gentleman coming up on the Asheboro train last evening that there is a case of smallpox at Asheboro, near the depot and that the house infected is under quarantine.

The three women that left Randleman and went to the country on account of smallpox have since taken the disease, I am informed.

Miss Maggie Slaughter returned last night from a visit to friends and relatives in Danville.

A goodly number of people have left town rather than be vaccinated. I suppose they have gone to stay as they cannot come back without being caught This is a step in the wrong direction, I think.

O E Jones has accepted a position with a Bulington furniture company. He left yesterday.

P. L. Lance, of Pittsburg was a guest of this city last evening.

W. S. Freeman came over from Winston yesterday on business.

Miss Bina Greene left today for Washington, where she has been tendered a position under the government. Her home is at Boone, but for several months she has been visiting her friend, Miss Mamie Smith.

The Home Lyceum met last night at the home of Geo. A. Matton.

February 7th is the last day named for free vaccination and, according to law, a house to house canvass will begin when it will be enforced. The time for supplication has passed and among the following "evils" you will have to choose the least: Pay a fine, go to jail, make yourself scarce, or submit to the proper thing—vaccination. Choose ye this day, wisely.

W. W. McMahon represented New York City here last night.

A. F. Ray was a Bostonian here yesterday.

Thomasville has quarantined against High Point and all other towns within the state known to be infected with smallpox. Boys, if you have tears to shed prepare to shem now—you can not go over next Sunday!

I am requested to say that the pest house near Green boro in which two negroes from this place are confined was built and payed for by the county and not by the city of Greensboro, and that High Point has the same right that Greensboro, Jamestown, or any other town or hamlet in Guilford county, to confine her patients there.

C. S. Cude, of Greensboro, spent this morning in the city.

Mrs. F. J. Fortier, left for Washington City this morning after a visit of several weeks to the family of her mother, Mrs. C. A. Hamner.

One of the school children whose face is broken out and who was thought to have smallpox has so far escaped a verdict to that effect. It is thought that she has a mild case of chickenpox. She is confined to her home, and is reported better.

Mrs. H. F. Stamey is suffering with a rheumatic affection in her left arm.

A case of smallpox has been found on the old cotton factory row in the hollow back of the depot. The house has been quarantined. It is reported that it is the worst case yet, and photographs will be taken of the victim, who is colored.

I want to say that I think the most rational thing to do where smallpox is prevalent is to VACCINATE.

W. L. Stamey.

An Old Newspaper.

A copy of "The Spirit of the Age," published at Woodstock, Vermont, in 1850 and sent to the Wilson Despatch, was found in the Telegram office. A letter from the Washington correspondent of the Yankee Blade gives an interesting description of the debates between Daniel Webster and John C. Calhoun, on the subject of secession. Webster became secretary of state under President Fillmore the same year Calhoun died the same year. It also refers to what at that time was the most sensational murder trial of the day. That of Prof. Webster, of Harvard, for the murder of Dr. Parkham. In the advertisements the hotels are called taverns. The paper is faded and torn but gives a good idea of the questions that occupied the minds of the people at that time.

He Don't Want Much.

The following advertisement was clipped from one of our live state papers:

Wanted—To marry 200 couples this year. Don't be deceived. I am still in my business, if we have a marriage license. I'll have plenty, if they can only at 25 cents extra. It will only be better for you--W. O. Bailes, Notary Public, State of South Carolina, York Co.

A Rough Voyage.

New York, Jan 31—The steamer State of Nebraska arrived here safely this morning. Had a tempestuous voyage, battled with the waves for twenty days. The captain says it was the toughest voyage it has ever had.

Why is it called E Z ? Because the first child who ever wore the waist exclaimed, "Papa, I like it because it's so easy." And children everywhere like it for the same reason. It gives all over. GOEBEL'S CONDITION CRITICAL

His Death Expected Within a Very Short Time.

MARTIAL LAW AT FRANKFORT.

Governor Taylor Adjourns the Legislature—Goebel Legislators Will Disregard the Proclamation.

By Wire to THE TELEGRAM.

Frankfort, Ky., Jan. 31—Martial law was declared this morning It is probable that the session of the legislature, at which the democrats had determined to seat Goebel, will be stopped by the military. One of the highest officers with the troops said: "The legislature says its going to meet at ten o'clock. Maybe it will, but whatever it does it will not unseat Gov. Taylor today.

Dr. Hume said this morning that the only thing that keeps Goebel alive is his splendid nerve, but that he can't keep up that alone. He considers death practically certain and that within a very short time.

Frankfort, Ky., Jan. 31—Governor Taylor has adjourned the legislature and refused to allow it to assemble.

Dr. Vance says the fact that Goebel has not rallied during the past six hours shows that his condition is desperate in the extreme. He is bleeding internally. The indications are that the right lung was perforated and has bled profusely.

Governor Taylor's proclamation adjourning the legislature fixes its meeting for February 6th at London, Laurel county.

Frankfort, Ky., Jan. 31—Goebel's hemorrhage has ceased. This is looked upon as evidence that he might pull through His courage never failed for an instant, and when he was able to talk he insisted that he would recover.

Goebel legislators say they will meet in the city building unless prevented by force.

ALL HOPE ABANDONED

1:00 p. m.—All hope for Goebel abandoned; can't live more than four or five hours.

Herrmann the Great.

The world-famous prestidigitator, "Herrmann the Great," will appear at the Academy of Music next Tuesday evening, Feb 6.

Leon Herrmann has been in this country now three years, has achieved remarkable success and a reputation for expertness in palming, in creating illusions, and presenting the many feats of the occult phenomena that are associated with his calling in such a superior manner as to place him in the front rank and to proclaim him the master. In much of what he does he resembles his late Uncle Alexander, he has the same mannerisms, the same happy faculty of speech and personal magnetism, besides resembling him in form and feature, as to startle the public when he first appears before them.

Born in France of German parentage, Hermann has travelled all over the inhabited globe, and his name and fame is established in every clime and country, as the most expert prestidigitator of the present day. He will present a novel entertainment of magic in this city, most of which has never been seen before. He does so many things that are in reality mystifying that he arouses curiosity and sustains interest. Several new illusions will also be presented. Unlike most magical entertainers, Herrmann does not rely upon himself alone as an exponent of the magic art to amuse his audience. His program contains several high class vaudeville interpolotions. "Solaret," the beautiful spectacular dancer, heads the list. A more beautiful vision than "Solaret" in the midst of her skillfully constructed lights and breathlike clouds of lace can hardly be imagined. Her dances are bewilderingly beautiful in their riot of color and fantastic movement, and no more magnificent effects have ever been produced on the stage. She will present five of her latest dance creations here, to-wit: "Night," "Filmament," "Nile," "Lily" and "Fire."

The four Luciers will play on many musical instruments and introduce many musical novelties. Mr. J. R. Lucier, who is totally blind, will render many musical novelties on the cornet. The four Luciers depend upon their skill with musical instruments to entertain their audiences and are distinct from the socalled musical artists on the vaudeville stage.

Another British Repulse.

Pretoria, Jan. 27— A dispatch from Colesburg, Cape Colony, says that Commandant De Laray reports that a large body of British advanced Thursday, January 25th, and he attacked them, cousing the British to retire, after suffering severe loss. The Boer casualties were two men slightly wounded. General Grobler reports heavy fighting since daybreak, the British, in great force, endeavoring to surround the Boer positions. General Shoeman hastened to the assistance of General Grobler. General Shoeman returned this evening and reports that the British were repulsed and that the Boers maintained their positions. The Boer loss was four men slightly and one severely wounded. The British loss is not known, but must be severe. The bombardment of Kimberley continues. The other Boer forces are reported quiet.

A NEW MORNING PAPER.

The Republicans to Publish a Daily at Raleigh

Raleigh is to have three morning dailies.

The republican and populist politicians in the state who are fighting the constitutional amendment have decided to establish a daily paper here.

It is very likely that the promoters of he new paper will take stock in the Caucasian, Senator Butler's paper, and publish it as a daily. In fact, this course has been agreed upon.

It is understood that State Auditor Ayer will occupy the editorial chair of the new daily.

Otho Wilson said last night that the Rayseeder would be resurrected and published as a daily before the campaign is over.

It is learned that the decision of the fusionists to publish a daily paper at the state capital was agreed upon last week at Washington. The leading spirits in the new venture are Senator Butler, Senator Pritchard and District Attorney Claude Bernard.

Dr. Abbott said last night that the new daily would make its appearance in two weeks or such a matter. Sufficient capital, he said, has been subscribed to insure its success.

The paper is conceived for campaign purposes only. One of those largely interested in the venture stated last night that the paper would be anti-democratic in its policy. It will be neither republican nor populist, but will fight the constitutional amendment all it knows how.

The Caucasian, which is now published as a weekly, has had a previous brief existence as a daily. In 1895 the paper was converted into a daily, but in less than two months it was again published as a weekly. The venture proved unprofitable —Morning Post.

GOEBEL DECLARED ELECTED.

He Will be Made Governor Today if He Lives.

Frankfort, Ky, Jan. 31—While Wm. Goebel lay at the point of death in his room as the result of an assassin's bullet, the contesting boards which for two weeks have been listening to the evidence in his contest for the governor's chair, declared him entitled to the seat. The boards having in charge the contests between Goebel and Taylor for governor, and Beckham and Marshall for lieutenant governor, met at 7 o'clock last night, in the city hall, to consider the evidence submitted to them, and prepare their report to the legislature. A few legal authorities was read to them at the request of Senator Allen, who wished light shed upon a few doubtful points. Then, by a strict party vote of 10 to 1, Wm. Goebel was declared to have been legally elected governor of Kentucky.

The Beckham-Marshall contest was then voted upon and a strict party vote of 9 to 2 settled this matter.

Several democrats sought to get together a quorum of both houses, hold a night session, push through the reports and declare Goebel the governor of Kentucky before morning, to give him the honor before he died, but too many legislators were away. It is a certainty that Goebel will be made Governor today if he is alive. The republicans probably, as soon as the decision in favor of Goebel is made, make application in the United States circuit at Cincinnati, for an injunction restraining Goebel and Beckham from taking their seats, and the battle will continue before Judge Taft, of that court.

The republican attorneys and Governor Taylor are confident that at least a tempory injunction will be granted, and that ultimate victory will be in their favor.

SOMETHING UNIQUE.

Old Maid's Convention Will Meet at Raleigh Next Month.

The people of Raleigh will be treated to something unique in the near future in the shape of an "old maids' convention." The affair will take place in Metropolitan Hall, but just who is interested or what will take place is a profound mystery

The reporter was attacked from ambush with the news, and though quite sure, from the subtile nature of the weapon, that the assailants were of the fair sex, the usual "pumping" process of obtaining news could not be employed, hence the details are meagre.

But, seriously speaking, the affair will be something new and novel. It may be properly called an "inter-state old maids's convention," since delegates from various states will represent unmarried ladies of their state at the convention.—Morning Post.

LADYSMITH CAN HOLD OUT

The Garrison is Healthy, Cheery and Confident

REINFORCEMENTS COMING IN

One Hundred and Fifty American Scouts Join the British—Debate in the House of Commons.

By Cable to THE TELEGRAM.

London, Jan 31—There is considerable speculation as to the whereabouts of Kitchener, who is never mentioned in the dispatches. The Newcastle Leader says it has good authority for the statement that he will probably leave for Natal immediately.

Cape Town, Jan 30—Buller still holds Tugela drifts. He may possibly renew the attempt to force his way through the defenses before long. In any case Ladysmith is capable of holding out considerable time.

Ladysmith, Jan. 28—News of the prolongation of the seige on account of Buller's failure received with fortitude. We can hold on. Garrison is healthy, cheery and confident, disease is disappearing, no horse sickness. Rains give plenty of grass. We can hear Buller's guns still working, reported advancing along another line Boer laagers again full of men, returned from upper Tugela. Boers have also taken up a new position in the hills near Colenso in great force. Reinforcements apparently arriving from the Transvaal. Strong bodies are visible between here and Potgeiter's Drift.

London, Jan 31—A dispatch from Cape Town says one hundred and fifty American scouts have arrived there and enlisted with the British forces.

The house of commons this morning resumed debate on the Fitzmaurice amendment address criticizing the ministry. Balfour said nothing so far had occurred to convince him that the intelligence department had reported erroneously regarding Boer guns Sir Michael Hicksbeach hotly denied that any preparation or expenditure had been stinted.

Spearman's Camp, Jan. 25 (delayed) —Boers are rejoicing, though it is certain they lost heavily. The British medical corps ascended Spion kop. A party of Boers met them half-way and after a parley consented to the removal of the wounded. The scene on the summit was fearful. Stretcher bearers were busy the greater part of the day.

Cape Town Jan. 31—Kimberlye heliographed Modder river Friday. All British subjects at Barkley, of west district, were ordered to take up arms for Boers or pay penalty of 35 pounds or three months hard labor. This order will affect 300.

TEN THOUSAND MEN DETAINED.

Talk of Forty-seven Militia Batallions Being Mobilized.

London, Jan. 31, 4 a. m —It is now known that the cabinet devoted much of its discussions on Saturday to the mobilization of the fleet. Until further security to the home coasts has been obtained by naval mobilizations, the Eighth division will not be sent to South Africa. The mobilization of reserve warships, if such a course shall be determined upon, would be of the utmost importance. There is nothing in the intelligence possessed by the public to cause the cabinet's prolonged discussion of the matter and the inference is that the fleet may be mobilized as a general warning to other countries to keep their hands off the Transvaal question, or the ministry may have definite knowledge that the neutral powers purpose to take some advantages elsewhere, while England is busy in South Africa.

One thing is certain. Ten thousand men, all ready to go to South Africa, are detailed for reasons of which the public has no knowledge. There is talk of forty-seven militia battallions being embodied. These are all of the militia batallions not previously warned. A sharp lookout is being kept on volunteers for the various South African regiments.

The Daily Chronicle says: "Three suspicious characters were rejected by headquarters in one regiment Monday. Two were unmistakably of Boer origin. The third, whose English was faulty, had been a German officer."

The indications are that the relief of Ladysmith has been abandoned for the present, and that a concentration of the British for an invasion of the Free State is in progress. In addition to Gen. Kelly-Kenny's movement, Gen. Brandt, chief of the Cape Colonials, has arrived at Sterkstrom. The natives report that three Boer guns have been removed from Spyfontein to Kimberley. The Boers are apparently making a special effort to reduce the place quickly. The Kimberley garrison was safe last Sunday.

Asheboro, Jan. 30—It is reported here that the Aberdeen & Asheboro railroad has been sold to a northern party, presumably for the Southern railway.

WEDNESDAY, JAN. 31, 1900.

We copy two editorials from The Morning Post—both are well written. Contrast the difference in the subject matter:

We thought we were prepared for most any denouement in the Kentucky contest, in which guns would figure and blood would flow, but confess that the cowardly assination of either of the principals in the contention was totally unexpected.

However trying and exasperating the contest carried on by Mr. Goebel may have been to his opponents, he and his associates were observing strictly the forms of law in their proceedings, and so long as this was done they were entitled to the protection of the law! but to have the results, as decreed in such observance of its mandates, strictly respected. Whatever of violence may have been done to the spirit of the law could be well left to the people to correct, and they would no doubt have corrected it.

But that a partisan could secrete himself in the executive building of the commonwealth and from such position wantonly shoot down the chief actor in the opposition to the present occupant of the executive office puts the coward in such close relations to the executive himself that it will be difficult for the latter to absolve himself from moral responsibility.

This act is appallingly disgraceful to the state in which it has occurred. If bloody revolution does not follow it will be a miracle, for the Demon of Destruction of all law and order never had a more ugent invitation to enter upon its hellish work.

With the constitution wantonly and deliberately violated by congress, every member of whom had sworn to support it, to be applauded by the people; followed so quickly such a horrible, and as cowardly as horrible, assassination of a citizen whom a large portion of the people think was but recently chosen to fill the highest office within their gift, and who at the moment was prosecuting his claim to said position at least in a manner prescribed by law, not to mention many other alarming though less criminal occurrences and tendencies going on throughout the country, it does seem that society is passing through a terribly trying ordeal the end of which, without change, is fearful to contemplate.

The whole state is to be congratulated no less than Dr. McIver and his faculty upon the re-opening of the Normal College yesterday under such flattering conditions.

The recent experience through which the college has passed has been deplorable in the extreme, but the prompt and faithful work by the authorities to remove every possible cause entitles them to the confidence manifested by this return of the young ladies to their duties.

The people of this state, on deliberation, rarely ever fail to exhibit the highest order of good common sense, and this is is but another illustration of the fact.

In this connection we must be permitted to advert to the noble act of Mr. Thomas Bailey, of Davie, whose two daughters—his only children—were victims of the awful calamity which befell the college. Bereft of those which he well says were dearer to him than life itself, as a memorial he provides a fund by which others may be the beneficiaries of opportunities it was his purpose and pride to provide for his own while living. May God comfort him in his sorrow, as he will bless the bread which he now casts upon the waters, to return after many days.

Heaven grant that no such misfortune will ever again befall this noble institution, or any other, in our old state.

BULLER'S SITUATION DANGEROUS

He Will be Caught in a Trap if the Boers Overwhelm the British.

New York, Jan. 30—A London despatch to The Evening World today says: "Butler's danger is now forcing itself on the military experts. A committee of national defense has already taken it up and is gravely considering it. Lord Roberts himself has communicated his anxiety, it is said He has, it is reported, cabled the committee that unless Buller and his forces arrive safely from their present position to the south of the Little Tugela river, they will be in imminent danger of having their communication cut. Lord Roberts has pointed out that Buller has with him an immense transport train, carrying his ammunition and supplies. This interferes with the mobility of his army.

"Buller's main force is now 22 miles from its base, at Frere and Chievely It is between the big Tugela river, over which it has retreated, and the little Tugela river, over which it has to retreat, in order to begin the march to its base.

"That part of it comprising Lyttleton's brigade may still be on the north side of the Tugela river at Potgieter's drift, though it is generally believed that it, too, has retreated over the river. It will take days for Bullers army to get back to its base. Meantime the Boers are in force at Colenso, only a few miles away from that base. Last Tuesday they crossed the river there and made a reconnoisance of the British camp, evidently with a view of ascertaining the strength of the force which Buller left behind to guard his base of communication The party that crossed came into contact with Buller's rear guard and killed several of the British. That reconnoissance indicated a purpose on the part of the Boers to cut Buller's communication off. Should they hurl an overwhelming force over the Tugela river and crush the British at Chieveley, they would have Buller in a a trap."

A Gatling Gun Trained on a Row of Small Stores and Dwellings.

Frankfort, Ky., Jan. 30—Three hundred men of the Second Kentucky infantry were camed around the capitol building tonight and 1,500 more are expected during the night and evening. All through the building where the adjutant general's office is located tonight lie sleeping soldiers, every man with his cartride belt buckled around his waist. The rifles are stacked outside the door, sentries walking beats beside them. The Gatling gun of the Lexington company is posted west of the capitol steps and the range to a row of small stores and dwelling houses south of the capitol grounds is carefully calculated. For weeks it has been the story that when an attack should be made upon the state government by the discontented of either party, the firing would commence from the upper windows of these buildings

He Only Repeats What has been Around th World.

It has been demonstrated repeatedly in every state in the union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher, of Liberty, W. Va., only repeats what his been said around the globe when he he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by C. E. Holton, druggist.

Clean Coal Mines.

The Chilean coal mines, opened in 1855, seem to be nice places to work in. The seam of coal runs from the shore under the waters of the Pacific ocean, and the tunnels are so clean that you could walk through them in a dress suit without making yourself dirty. They are lighted by electricity, and you can have a ride for a mile under the ocean on an electric car at a speed of 20 miles an hour. The mines form quite a catacomb of well lighted passages under the water. The output of coal is now 1,600 tons a day, and 750 miners are employed in them.

Cycling and Alcohol.

"Remember," says an experienced New York physician, "that alcohol stimulates the heart and circulation in much the same way as exercise does and that if you use it in any form while wheeling the reaction is speedy and farreaching."

In the same way a long ride should never be undertaken immediately after a plentiful meal, this also tending to interfere with the heart's action and respiration.

A Foreign Writer's Burden.

"I find your political terms very puzzling." remarked the foreigner who was trying to gather material for a book on American institutions. "For example, to rotate means to move in a circle. A ring also means a circle. Now I am told that when a ring controls your offices they don't rotate any more."—Chicago Tribune.

A European statistician has discovered that only 55 per cent of the blonds marry, while 79 per cent of their brunette sisters engage in matrimony.

A Frightful Blunder

Will often cause a horrible burn, scald, cut or bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures old sores, fever sores, ulcers, boils, felons, corns, all skin eruptions. Best pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by C. E Holton, druggist.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S., and began to improve. I continued the medicine, and it cured me completely, building up my health and increasing my appetite. Although this was ten years ago, I have never yet had a sign of the disease to return.

W. R. NEWMAN, Staunton, Va.

It is like self-destruction to continue to take potash and mercury; besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

is guaranteed Purely Vegetable, and is the only blood remedy free from these dangerous minerals.

One Minute Cough Cure, cures. That is what it was made for.

"I feel as if I should fly to pieces." How often those words are on a woman's lips. They express to the uttermost the nerve racked condition of the body, which makes life a daily martrydom.

If this condition had come suddenly it would have been unbearable. But the transition was gradual. A little more strain each day on the nerves. A little more drain each day of the vitality. Any woman would be glad to be rid of such a condition. Every woman tries to be rid of it. Thousands of such women have been cured by Dr. Pierce's treatment with his "Favorite Prescription" when local doctors had entirely failed to cure.

Sick women suffering from unpleasant drains, irregularities, bearing down pains, inflammation and ulceration are invited to *consult* Dr. Pierce, Buffalo, N. Y., by letter free of charge. Every letter is guarded as a sacred confidence. All letters are promptly answered and mailed in private envelopes without printing of any kind upon them.

"Favorite Prescription" is in the fullest sense a temperance medicine, containing neither alcohol nor opium or other narcotic in any form. Accept no substitute.

Mrs. Rena Hensel, of Massillon, Stark Co., Ohio, writes: "I had been troubled with chronic constipation and female weakness and doctored with different physicians, none of whom seemed to help me. I saw one of your advertisements, and I thought I would try your medicines. I did so and with good results. Took one bottle of Dr. Pierce's Favorite Prescription, and two of his 'Golden Medical Discovery,' and I can say I am cured of my troubles, thanks to Dr. Pierce and his medicines. They do a world of good to those who give them a good trial."

Dr. Pierce's Pleasant Pellets are a perfect cure for constipation.

Tommy—"Pop, what is vulgar ostentation." Tommy's Pop—"Vulgar ostentation, my son, is the display made by people who have more money to do it with than we have ourselves."

Lewis Dennis, Salem, Ind., says: "Kodol Dyspepsia Cure did me more good than anything I ever took." It digests what you eat and cannot help but cure dyspepsia and stomach troubles. Howard Gardner.

Chapel Hill Items.

Chapel Hill, Jan. 30—The University is saddened by the death of Mrs. Henry V. Wilson, wife of Dr. Wilson, professor of biology. Mrs. Wilson died last night. She was originally from Boston, but had lived here since her marriage to Prof. Wilson, some years ago. Besides her husband, three small children survive her and mourn their loss. The funeral services will be held from the Episcopal church tomorrow afternoon at three o'clock, Rev. Dr. Meades officiating. The interment will be in the Chapel Hill cemetery.

The election for marshals at commencement has been held and resulted in the selection of E. C. Gudger, of Asheville, as chief, and five assistants, follows: Ebenezer Alexander, of Chapel Hill; J. C. Hobbs, Jr., of Hobton; A. G. Graham, of Charlotte; C. P. Coble, of Guilford county, and P. H. Busbee, of Raleigh.—Charlotte Observer.

Words of Praise from a Banker

Mr. Chas. E. Currier, of the Atlanta National Bank, is very careful with his words, not only in financiering, but in his conversation generally. He suffered much from indigestion, and writes: "I have used Tyner's Dyspepsia Remedy in attacks of acute indigestion and have always found it to give instantaneous relief. I consider it a medicine of high merit.

Gaining a Wide Reputation.

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D B. Johnston, of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says; "I never found anything that would relieve me until I used Chamberlain's Pain Balm. It acts like magic with me. My foot was swollen and pained me very much, but one good application of Pain Balm relieved me. For sale by O. E. Holton, druggist.

WINE OF CARDUI

THE LINK THAT BINDS.

JACKSON, TENN., Nov. 28.

I was subject to miscarriage for three years, and suffered constantly with backache. I wrote to you for advice, and after using three bottles of Wine of Cardui, according to your directions, I am strong and well, and the mother of a fine girl baby.

Mrs. B. N. JOWERS.

Wine of Cardui

There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The prattling and cooing of the little ones offset a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disorders known as "female troubles". Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, fitting the wife for the sacred duty of reproducing her kind. During the period of gestation the entire system of the expectant mother is built up to withstand the ordeal of labor, and when the little one makes its advent it is lusty and strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread. Wine of Cardui is truly a wonderful medicine for women.

Questions and Answers.

A school inspector well known for his weight was trying to extract the word "flesh" from a class. His efforts had failed, but, taking hold of his fat cheek between his thumb and forefinger, he pulled it out and asked:

"What's this?"

The unhesitating answer came promptly, "Pork, sir."

The same inspector was once giving an object lesson on an umbrella. To illustrate his subject he took his own silk umbrella, which happened to have a small hole in it.

"What is this, boys?"

"An umbrella, sir."

"And what is this?"

"The stick, sir."

"And these?"

"The ribs, sir."

"With what is it covered?"

Silence.

"Surely you know. What kind of an umbrella would you call it?"

"An old 'un, sir."—Good Words.

When Horses Go to Sleep.

It is not generally known that at least four out of every ten horses do not lie down to sleep. The horse that sleeps in a standing position rests one leg at a time, depending on the other three to sustain the weight of his body. The habit is a very dangerous one. Only a short time since a fine horse in the stables of a big manufacturing concern went to sleep while standing in his stall and fell heavily to the floor, breaking one of his legs. A great many horses are permanently injured as a result of accidents of this nature, and there is no way of curing them of the habit.

All doctors told Renick Hamilton, of West Jefferson, Ohio, after suffering 18 months from rectal fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest pile cure on earth, and the best salve in the world. 25 cents a box. The Concert Friday Night

To be given in the court house by the Drs. Moore, will be of no little interest to all lovers of music. The selections of the records are very fine and very distinct, you can plainly hear every word and every sound that is produced by this wonderful machine. Understand, this is not a phonograph entertainment. It is Mr. Edison's latest invention, the world renowned Graphophone-Grand. Don't mind the weather, the room will be heated by two immense stoves. The admission is 15 and 25 cents, so everybody come and hear the concert.

Men's four dollar high cut tan hunting shoes will be sold for the next ten days at $2 75 and their $3 50 high-cut russet and black line at $2 50 at Thacker & Brockmann's.

"I am indebted to One Minute Cough Cure for my health and life. It cured me of lung trouble following grippe." Thousands owe their lives to this never failing remedy. It cures coughs, colds, croup, bronchitis, pneumonia, grippe and throat and lung troubles Its early use prevents consumption. It is the only harmless remedy that gives immediate results. Howard Gardner.

For the next five days—that is, for the rest of this month—we will make the following special prices: Infants' fur-topped shoes—pink, red, tan and blue—33 cents; ladies' toilet slippers, (same color,) 50 cents. Any and all woolen underwear in stock, including union suits, at cost. All ladies' wraps at cost, except a few carried over from last season, which will be sold at half price. Please notice that this offer is only until February 1st.

Thacker & Brockmann.

Keep your feet dry. Shoe bills are cheaper than doctors' bills. We can fit you and any of your family in good reliable shoes at very moderate prices. It is no use for us to quote prices, because telling you the price does not convey any idea to you unless you can see the shoes. But we have too many shoes on hand in several lines and if you will take the trouble to give us a look we can convince you that we are willing to give you a great deal of shoe value for a very small amount of money, whether we get a profit on the shoes or not.
